All about Mrs. Valenzuela

For the past 20 years I have been a Head Start teacher. First worked for the Texas Migrant Head Start for three years. Got married and moved to Fond Du lac, Wisconsin. Wisconsin has given us my husband and I three wonderful children and a place to call home.

Now I'm at the ADVOCAP Head Start Program for the past 17 years. I worked as a classroom teacher and now I'm enjoying the Homebase combo program. The Homebase program has given me an opportunity to work with the parents as a team on their child's goals. This has been one of the best positions I have had. Going into the child's home and working with the parent and child in their home environment.

Our Classroom

I will visit your home once a week for an hour and a half. You will choose the time and date you would like for me to visit your child. The time and date will stay constantly through the school year.

On Wednesdays your child will attend a classroom setting at the ADVOCAP Head Start building for about three hours and a half. The classroom is set for your child to have an opportunity to learn from the seven areas; Housekeeping, Block, Library, Music, Science, Math, and Art/Writing. Your child will enjoy breakfast by 8:45am and lunch by 11:15am. Breakfast and Lunch are set as a home family style.

Our First Unit

Our first theme will be all about me. The children will learn about themselves and about their friends.
